The first part of the itinerary is in the Pays Basque. The GR10 weaves its way from village to village, without reaching Spanish soil. An opportunity to discover typical villages of the region such as Estérençuby or the hamlet of Logibar. After Logibar, Sainte-Engrace, the most eastern basque mountain village. From here the GR10 goes into a typically Pyrenean, high mountain setting. In gaining altitude you will reach Saint-Martin before descending upon the village of Lescun, renowned for its famous glacial cirque. The first Pyrenean peaks of more than 2000m altitude like Pic d'Anie will appear. Before that, you will also discover the Iraty forest, the Haute Soule, the Holzarté gorges and its famous footbridge. The best part of the walk awaits you at the end of this section at the village of Etsaut, in the Aspe valley, gateway to the famous Pyrenean National park.

•PROGRAM

Day 1 : Start of holiday in Saint Jean Pied de Port

Saint-Jean-Pied-de-Port is the capital of the Pays Basque region. It lies in a circle of hills at the foot of the Roncevaux pass into Spain. After checking into your hotel you may choose to do a walk in the surrounding area or to visit the village, a chance to discover the many delights of this seductive region.

Explore St Jean and its surroundings

Walk through the Irouléguy vineyards and the village of Ispoure, in the surroundings of the capital of the Basse Navarre - a region with many touristic assets.

Kurutxamendi loop

The Kurutxamendi is a small hill dominating Saint-Jean-Pied-de-Port. This pedestrian loop can be a pleasant short and easy stroll at the side of the pilgrims who go to St Jacques de Compostela. Despite the low altitude, you will have good visibility over the peaks of Navarre, and even Labourd.

- Distance : 9km, duration : around 3h, altitude gain : +300m, descent : -300m
- Distance : 5km, duration : around 1h30, altitude gain : +150m, descent : -150m

Day 2 : from Saint Jean Pied de Port to Phagalcette

The GR10 stays in the Pays Basque for approximately 170km of walking, winding its way through tiny villages but keeping to the French side. The trail heads out in an Easterly direction from St Jean towards the nearby hills. Following the deepening valley past small, isolated farms, sparkling mountain streams and steep green slopes. You get glimpses of the higher Pyrenean peaks to the East. The culture is rural and distinctly Basque. As you pass through the villages, such as Caro and Estérencuby, you can soak up the ambience. Stop at Estérencuby for the comfort version, otherwise continue the hike to Phagalcette.

- Distance : 18.5km, duration : around 7h, altitude gain : +1000m, descent : -550m (To Phagalcette)
- Distance : 14.5km, duration : around 5h, altitude gain : +600m, descent : -550m (To Esterencuby, comfort version)

Day 3 : from Phagalcette to Iraty

In the morning, short transfer from Estérencuby to Phagalcette for the comfort version. The day's stage has a sporting character due to its distance, combined with the hike's rugged topography. Through beautiful, vast pasture plateaus with clear views, you'll reach the magnificent site of the Cromlechs d'Occabé, a prehistoric monument of stones planted in the earth and arranged in a circle. From here, you'll enter the Iraty forest, Europe's largest beech forest, straddling the border between France and Spain. Then you'll reach the Iraty chalets at the Col de Bagargui.

- Distance : 20,5km, duration : around 7h45, altitude gain : +1400m, descent : -700m

Day 4 : from Iraty to Logibar

Starting from the chalets d'Iraty, we pass the Pic des Escaliers, culminating at 1472m, before beginning the descent via the Ugatzé ridge, then reaching Logibar. Crossing ridges and passes, the route offers remarkable views to the east towards the first high peaks of the Pyrenees: Pic d'Anie (2504m), Pic d'Ansabère (2360m), Table des 3 rois (2421m), Visaurin (2669m)... Not forgetting the nearby Pic d'Orhy (2017m), the top of the Basque Country.

- Distance : 16km, duration : around 6h30, altitude gain : +450m, descent : -1400m.

Day 5 : from Logibar to Senta

From the hamlet of Logibar, the GR10 passes the canyon of Holzarté with its famous bridge. The GR progresses in the direction of the plateau of Ardakhotchia before arriving at the 'cayolar de Saratzé', altitude 1205m. Cayolars are the traditional shepherd's cabins. To arrive at the hamlet of Senta, you will penetrate the valley of Barétous, this is part of the second region you will discover called the Béarn. It is a region that functions to the rhythm of nature's calendar and rural pastoral life. As this hike is quite long, a shorter version is also proposed.

- Distance : 25,5km, duration : around 8h30, altitude gain : +1300m, descent : -1100m
- Distance : 22km, duration : around 7h45, altitude gain : +1250m, descent : -1050m (variant)

It's also possible to walk this part, adding a night in La Pierre St Martin or with a long hike from Senta to Lescun (Consult us). The GR10 makes its way to the Arres de Camplong and on to the massif of L'Anie. There are superb views of the Pas d'Azuns mountains in the direction of the Pic d'Anie at 2504m, one of the first really high summits in the mountain chain. The trail continues into the famous glacier cirque at Lescun. The views are awesome, the summit of Camplong, le Pic Billare and the nearby plateau of Sanchèse.

- Distance : 15,5km, duration : around 5h45, altitude gain : +500m, descent : -1200m.

The trail comes out of Lescun glacier cirque and progresses towards a series of small charming mountain villages. After passing by the plateau de Lhers and the Col de Barancq, the itinerary arrives at the village of Etsaut in the famous Aspe valley . This is the gateway to the Pyrenean National park.

- **Distance : 16km, duration : around 6h15, altitude gain : +850m, descent : -1150m**

•WHAT TO BRING AND PACK**Your main luggage (if package includes luggage transport between accommodations) :**

Your luggage must be dropped off at the reception desk of your accommodation by 9 a.m. at the latest. It will be delivered to your next accommodation before 5 p.m. Only one piece of luggage per person will be transported. The transport company may charge you a supplement at the end of the hike if your luggage is too heavy or too numerous.

Your day backpack

The size of your bag varies upon the type of activity.

For a walk without portage : 30L minimum

For a walk with partial portage : 50L minimum

For a walk with portage : 60L minimum

Whatever activity you participate in, you should always carry in your rucksack:

- Rainwear, warm clothing, spare T-shirt, sunglasses, sun cream, first aid kit, picnic kit, personal items, etc.)
- Picnic lunch of the day (bring a plastic box)
- Sufficient water (minimum 1.5 litre water bottle)

Walking Boots

The type of boot depends upon the activities you take part in however they are one of your most important items. They should be comfortable, waterproof and breathable. For the best protection we advise ankle boots.

We recommend our young walkers to wear flexible walking boots with a good sole and back.

For mountain walking for more than 4 hours long we recommend a boot with a fairly ridged sole.

If you need to buy a new pair of boots, we advise you wear them in before the start of your holiday. Don't wear boots that are too small because feet have a tendency to swell up. Be careful with your shoes that have been left in the wardrobe for too long. The lifespan of a shoe is 2 to 5 years. After a while the soles will come off and the seams can tear.
