This section of the GR10 takes you to the heart of the Pyrenees. It crosses the Pyrenees from Cauterets to Bagnères-de-Luchon and can be described in two parts. The first part of the itinerary takes place in Pays Toy. The word 'Toy', formerly Thôys, means : child or small and refers to the youthfulness of the villages. From Cauterets to Barèges, via the high valley of Luz-Saint-Sauveur and the col de Riou, where there is a splendid panoramic view, you will visit villages renowned for the benefits of their thermal waters. In the second part, from Barèges to Bagnères-de-Luchon, the itinerary makes its way through a succession of lakes, mountain passes, at more than 2000m altitude, and mountain villages. You will cross the Natural Reserve in Néouvielle and its remarkable glacial lakes, before reaching the villages of Saint-Lary-Soulan and Germ, the famous Espingo lake refuge and finally Bagnères-de-Luchon, the « belle of the Pyrenees ».

If you're leaving your car for the duration of your stay, please check with the tourist office to find out if there are any events (festivals, markets, etc.) taking place in your parking area.

We recommend to arrive by train to avoid returns to departure to recover your car, because itineraries can be very long and badly served and very expensive if you take a taxi. If you insist to come with your car, we recommend you to leave your car on the arrival point the first day and to do the run to the departure point because the first day you have plenty of time to do the run and you will not be tired by a week walking.

•WHAT TO BRING AND PACK

Your main luggage (if package includes luggage transport between accommodations) :

Your luggage must be dropped off at the reception desk of your accommodation by 9 a.m. at the latest. It will be delivered to your next accommodation before 5 p.m. Only one piece of luggage per person will be transported. For logistical reasons, we ask you to limit the weight of your luggage to a maximum of 15kg and to avoid hard suitcases: our logisticians and transport partners have to load and unload dozens of them every day, sometimes involving a lot of stairs... The transport company may charge you a supplement at the end of the hike if your luggage is too heavy or too numerous.

Your day backpack

The size of your bag varies upon the type of activity.

For a walk without portage : 30L minimum

For a walk with partial portage : 50L minimum

For a walk with portage : 60L minimum

Whatever activity you participate in, you should always carry in your rucksack:

- Rainwear, warm clothing, spare T-shirt, sunglasses, sun cream, first aid kit, picnic kit, personal items, etc.)
- Picnic lunch of the day (bring a plastic box)
- Sufficient water (minimum 1.5 litre water bottle)

Walking Boots

The type of boot depends upon the activities you take part in however they are one of your most important items. They should be comfortable, waterproof and breathable. For the best protection we advise ankle boots.

We recommend our young walkers to wear flexible walking boots with a good sole and back.

For mountain walking for more than 4 hours long we recommend a boot with a fairly ridged sole.

If you need to buy a new pair of boots, we advise you wear them in before the start of your holiday. Don't wear boots that are too small because feet have a tendency to swell up. Be careful with your shoes that have been left in the wardrobe for too long. The lifespan of a shoe is 2 to 5 years. After a while the soles will come off and the seams can tear.
