

Factsheet | Self-guided walk | Level 4/5  | 6 walking days on the GR10

GR10 Bagnères de Luchon - Aulus les bains : Wild Ariège

Your route in brief

- Self-guided walk without guide
- Walk with family, friends or as a couple
- Possibility of a comfort version with 4 nights in room
- Transport of your luggage between each stage (depending on the option chosen) except for 1 night in mountain refuge
- Access and return possible via Luchon and Aulus les Bains
- Duration 7 days / 6 nights

Strong points

- A part of the itinerary in the Natural Park of the Ariègean Pyrenees
- The magnificent views of the high peaks of the Luchonnais, the Encantats and the Maladeta
- The small preserved mountain hamlets
- Hiking through the Couserans, the territory of the Bear
- The wild beauty of the Ariège
- Crossing the Mont Valier Reserve
- An itinerary between forest, pasture and belvedere

From Luchon to Aulus-les-bains, the GR10 follows ancient passages that were used as a means of communication between the deep valleys. Here, the itinerary follows a rural and forestry trail around the Piemont villages of Artigue and Melles-en-Comminges and the hamlets of Eylie, Bouche, Aunac and Bidous before rejoining another thermal station, Aulus-les-bains. The walk between Comminges and Couserans will take you through some remarkable flora : Gispet (widespread grass that gets slippery when wet and thrives on high altitude terrain), rhododendron flowers, blueberries and majestic beach trees that share the forest with fir trees. In Couserans you discover more traces of the past when the trail takes you to various 'jasses', (an area where the shepherds would gather their sheep near to the river), old shepherd's cabins and cairns, all signs of an ancient presence.

From Artigue village, you cross a high col called the col de la Peyrahitta at an altitude of 1947m. Just after the col, if you are feeling up to it, you have the chance to climb the Pic de Bacanère, 2193m, this is a good variant and links up with the lake of Dessus. After having crossed Cigalères ridge (2093m) you pass one cabin after another before arriving at the village of Fos at an altitude of 544m.

- Distance : 20km, duration : around 7h45, altitude gain : +1000m, descent : -1650m.

Day 3 : from Fos to Araing lake

From the village of Fos and the Comminges, after a long climb and crossing the Col d'Auéran, at 2176m altitude, you leave the Haute Garonne for the Ariège and the Couserans. From the pass, you can see the beautiful site of the Araing refuge, the finish line of the stage, located near the pond of the same name beneath the cliffs of the Crabère summit. The landscapes we've crossed are a harbinger of the wilderness of this Pyrenean region.

- Distance : 16km, duration : around 7h, altitude gain : +1700m, descent : -300m.

Day 4 : from Araing lake to Eylie

This section links Etang d'Araing to Eylie d'en Haut. It crosses the first part of Ariège by passing through a series of small mountain villages, the architecture and ambience are not to be missed. This stage being very short, it is possible to climb the Pic de l'Har (2424m), a remarkable viewpoint on the high peaks of the Couserans and the Pyrenean foothills.

- Distance : 8km, duration : around 4h15, altitude gain : +400m, descent : -1350m.
- Distance : 10km, duration : around 5h30, altitude gain : +600m, descent : -1550m (Pic de l'Har variant).

Day 5 : from Eylie to Maison du Valier

Starting from Eylie, this first sporting stage in the heart of the Couserans crosses the wild spaces typical of this part of the Pyrenees: beech forests, summer pastures, shepherds' huts, etc. As you reach the Arech and Clot du Lac passes, you will enjoy beautiful views of the surrounding mountains, rising above deep valleys. You will then reach the Pla de la Lau and the Maison du Valier. Long and difficult stage, possibility of organizing a transfer in the morning to shorten it (with extra cost, consult us).

- Distance : 18km, duration : around 8h30, altitude gain : +1600m, descent : -1650m.

Day 6 : from Maison du Valier to Col de la Core

This is a stage on paths that are often on balconies, between the high mountains and the Couserans foothills. You'll leave behind the Mont Valier massif, the emblematic summit of the Couserans, while enjoying superb views of the latter and other high peaks in the area. The charming little pond at Ayes will also brighten up the route, before you reach the Col de la Core. At the end of the hike, transfer from Col de la Core to St Lizier d'Ustou to avoid a section of the GR10 without accommodation. However, it is possible to add a day of hiking to St Lizier d'Ustou via a variant of the GR10 (Tour du val du Garbet), please consult us.

- Distance : 13,5km, duration : around 6h30, altitude gain : +1250m, descent : -800m.

Day 7 : from St Lizier d'Ustou to Aulus les bains

From the pretty hamlet of St Lizier d'Ustou, nestled in the heart of a very green valley, you reach the Escots pass. From the latter, there is a beautiful view of the last high peaks of the Couserans. Then you will head towards the spa village of Aulus les Bains via the Casérien cirque and the pretty Fouillet waterfall. A possible detour via Guzet and the Ars waterfall will allow you to admire one of the most beautiful waterfalls in the Pyrenees.

- Distance : 15km, duration : around 6h30, altitude gain : +1100m, descent : -1100m.
- Distance : 23km, duration : around 9h, altitude gain : +1450m, descent : -1450m (via Ars waterfall).

If you insist to come with your car, we recommend you to leave your car on the arrival point the first day and to do the run to the departure point because the first day you have plenty of time to do the run and you will not be tired by a week walking.

•WHAT TO BRING AND PACK

Your main luggage (if package includes luggage transport between accommodations) :

For logistical reasons, we ask you not to bring more than one item/person. Its weight should not exceed 12kg - 15kg.

Your day backpack

The size of your bag varies upon the type of activity.

For a walk without portage : 30L minimum

For a walk with partial portage : 50L minimum

For a walk with portage : 60L minimum

Whatever activity you participate in, you should always carry in your rucksack:

- Rainwear, warm clothing, spare T-shirt, sunglasses, sun cream, first aid kit, picnic kit, personal items, etc.)
- Picnic lunch of the day (bring a plastic box)
- Sufficient water (minimum 1.5 litre water bottle)

Walking Boots

The type of boot depends upon the activities you take part in however they are one of your most important items. They should be comfortable, waterproof and breathable. For the best protection we advise ankle boots.

We recommend our young walkers to wear flexible walking boots with a good sole and back.

For mountain walking for more than 4 hours long we recommend a boot with a fairly ridged sole.

If you need to buy a new pair of boots, we advise you wear them in before the start of your holiday. Don't wear boots that are too small because feet have a tendency to swell up. Be careful with your shoes that have been left in the wardrobe for too long. The lifespan of a shoe is 2 to 5 years. After a while the soles will come off and the seams can tear.

Clothes:

- A wind and rainproof jacket
- A thick jumper or a fleece
- Comfortable walking trousers
- Shorts, t shirts as well as breathable base layers
- Spare clothes
- Swimwear and towel
- For the start and end of season, hat and gloves suitable for GR10 walks at altitude.
