# GR10 Vernet les Bains - Banyuls sur Mer : From the Canigou to the Sea

## Your route in brief

- Self-guided walk without guide
- Walk with family, friends or as a couple
- Possibility of a comfort version with 4 nights in room
- Transport of your luggage between each stage (depending on the option chosen) except for 1 night in mountain refuge
- Access and return possible via Vernet les Bains and Banyuls sur Mer
- Duration 7 days / 6 nights

## Highlines

- A part of the itinerary in the Natural Park of the Catalan Pyrenees
- The crossing and the ascent of the Canigou and its immense panorama
- The diversified and preserved paths of the Canigou balcony
- The Albère massif plunging into the sea
- The arrival on the sea and the magnificent Vermeille coast, final of the crossing of the Pyrenees
- Sunny weather on this section of the Pyrenees

The mountain that is fully representative and symbolic of the Eastern Pyrenees, the very symbol of the Catalans, is the Massif du Canigou. This summit dominates the Roussillon plains and the Mediterranean coastline. The position of the summit is isolated from the rest of the Pyrenean chain, so it stands out and is easy to spot, omnipresent in the landscape. It is nicknamed the Fujiyama Catalan. These protected areas that you walk through are a special environment and for nature lovers there is rich flora and fauna to admire. From Vernet-les-Bains, depending on the weather and your motivation, you have the choice of going around the Canigou summit, or going up and over! Then, you will drop down to the Roman spa town Arles sur Tech. From here, the GR10 gets close to the French/Spanish border, after having passed the Roc de France and the famous Col du Perthus, you will drop down into a vegetation of Mediterranean garrigue. The last mountain foothills of the Massif des Albères give way to the sea. You can't help but be charmed as you approach the enticing blue coastline. The sandy beach of Banyuls, one of the prettiest spots along the Vermeille coastline is not far off !

## •PROGRAM

### Day 1 : Arrival in Vernet-les Bains

Installation in your accommodation, according to your arrival time. Depending on your arrival time, you can visit the village or go hiking.

#### The Cascade des Anglais and the Saint Vincent

A refreshing out-and-back hike to discover the spectacular waterfalls in the Gorges de St Vincent, offering a nice mix of lush vegetation, cool gorges, bridges and footbridges. There are also several small watering holes to refresh yourself.

#### Pic de la Pena

Hike to the Pic de la Pena (1062m) which offers a superb view of the Canigou and the surroundings of Vernet-les-Bains. You will also see the Abbey of Saint-Martin du Canigou lurking in its setting.

- Distance: 6km, duration : about 2h30, altitude gain : + 375m, descent : - 375m.
- Distance: 6km, duration : about 2h45, altitude gain : + 470m, descent : - 470m

### Day 2 : From Vernet les Bains to Cortalets refuge

In the morning transfer (15min) to the Col de Jou at the start of the hike. From the col de Jou, the GR10 reaches the refuge de Mariailles, a splendid site overlooking spectacular gorges, in the heart of the wild forests of the Cadi basin. Then it goes around the famous Canigou via the col de Ségalès (2040m), the jasse del Py and the refuge de Bonne-Aygue before reaching the guarded refuge des Cortalets : a superb route in the Mediterranean mountains. In good weather, the Canigou, outside the GR10, it's a summit accessible, the final ascent remains more famous for the elegance of the path than for the difficulty encountered. From the summit, a grandiose panorama as far as the sea and the plain of Roussillon.

- Distance : 20km, duration : about 8h, altitude gain : +1600m, descent : -600m.
- Distance : 16.5km, duration : about 7h30, altitude gain : +1650m, descent : -650m (Canigou variant).

### Day 3 : From Cortalets refuge to Batère

Leaving the century-old refuge of Les Cortalets, you follow the balcony of the Canigou for most of the day. Step by step, you discover a breathtaking panorama. The view stretches from Roussillon to the Mediterranean to the Cerdagne and Capcir; and from the Corbières to the Montagne Noire to Sète and the Cévennes. At the end of the day, you will travel along the "iron road", the mining sites of the Canigou which were once renowned for the quality of their ore.

- Distance : 16km, duration : about 5h45, altitude gain : +450m, descent : -1150m.

### Day 4 : From Batère to Arles sur Tech

During the descent to the charming tourist resort of Arles sur Tech, you will encounter many types of vegetation in this massif, from high altitude pastures to forests. The alpine environment is slowly transforming into a Mediterranean environment. The Canigou Massif itself is home to a quarter of the plant species in France and all the mountain wildlife you would expect. You reach Arles, nestled in a meander of the Tech. This small medieval town is home to the abbey of Sainte Marie, founded in the 8th century, and a 13th century cloister.

- Distance : 12,5km, duration : about 4h15, altitude gain : +100m, descent : -1250m.

### Day 5 : From Montalba to Las Illas

Transfer (25min) from Arles sur Tech to Montalba (can be avoided, consult us). Start from the hamlet of Montalba d'Amélie, with its incomparable isolation and charm. At the exit of the beech and chestnut woods, the Cerda pass offers itself to you, at the base of the Sant Salvador rock. Then it is the crest of the Frausa rock with its wide panorama of the Catalan plain of the Empordà.

- Distance : 17,5km, duration : about 6h45, altitude gain : +1050m, descent : -1050m.

### Day 6 : From Las Illas to Col de l'Ouillat

This stage is the transitional point of the Pyrenean crossing as the GR10 approaches the Alberes massif and joins the Franco-Spanish frontier up to the col du Perthus. Its twin, the GR11, takes on the same itinerary on the Spanish side. The Alberes is the last Pyrenean massif before diving into the deep blue sea. Crossing it is a real pleasure given the diversity of the landscapes.

- Distance : 25km, duration : about 8h, altitude gain : +1000m, descent : -650m.

### Day 7 : From Col de l'Ouillat to Banyuls sur Mer

A long stage, with highlights such as the passage to the Pic Neulos, the Pic des Quatre-Termes, or the Pic de Saifort, the last promontory before the descent to the sea. Here, in the heart of the Mediterranean vegetation, everything has been shaped by the tramontana. Further down, the vegetation of the Pyrenean foothills has taken on the appearance of vineyards, with its "casots", dry stone huts. The sea is there, very close, attractive.

- Distance : 23km, duration : about 8h, altitude gain : +700m, descent : -1600m.

*This programme is an example of the itinerary we aim to adhere to. It may be necessary, if situations arise that are beyond our control, for the itinerary to be modified.*

Our suggestion : Carrefour Market parking lot, Centre Commercial La Rectorie

If you are leaving your vehicle for the duration of your stay, please check with the tourist office to find out if there are any events (festivals, markets, etc.) in the area where you are stationed.

We recommend to arrive by train to avoid returns to departure to recover your car, because itineraries can be very long and badly served and very expensive if you take a taxi. If you insist to come with your car, we recommend you to leave your car on the arrival point the first day and to do the run to the departure point because the first day you have plenty of time to do the run and you will not be tired by a week walking.

## •WHAT TO BRING AND PACK

### **Your main luggage (if package includes luggage transport between accommodations) :**

For logistical reasons, we ask you not to bring more than one item/person. Its weight should not exceed 12kg - 15kg.

### **Your day backpack**

The size of your bag varies upon the type of activity.

For a walk without portage : 30L minimum

For a walk with partial portage : 50L minimum

For a walk with portage : 60L minimum

Whatever activity you participate in, you should always carry in your rucksack:

- Rainwear, warm clothing, spare T-shirt, sunglasses, sun cream, first aid kit, picnic kit, personal items, etc.)
- Picnic lunch of the day (bring a plastic box)
- Sufficient water (minimum 1.5 litre water bottle)

### **Walking Boots**

The type of boot depends upon the activities you take part in however they are one of your most important items. They should be comfortable, waterproof and breathable. For the best protection we advise ankle boots.

We recommend our young walkers to wear flexible walking boots with a good sole and back.

For mountain walking for more than 4 hours long we recommend a boot with a fairly ridged sole.

If you need to buy a new pair of boots, we advise you wear them in before the start of your holiday. Don't wear boots that are too small because feet have a tendency to swell up. Be careful with your shoes that have been left in the wardrobe for too long. The lifespan of a shoe is 2 to 5 years. After a while the soles will come off and the seams can tear.

### **Clothes:**

- A wind and rainproof jacket
- A thick jumper or a fleece
- Comfortable walking trousers
- Shorts, t shirts as well as breathable base layers
- Spare clothes
- Swimwear and towel
- For the start and end of season, hat and gloves suitable for GR10 walks at altitude.

### **For Sleeping**

- Sleeping bag liner for all nights spent in the gites and mountain shelters (blankets are provided)
- Earplugs

### **For Picnics**

- Sealed plastic box (0.5L) to carry salads
- Cutlery (folding knife and fork)
- A 1,5L minimum flask

### **Small equipment**

- A pair of tennis shoes, or sandals for the evening
- A pair of telescopic poles (optional)
- Sunglasses and sun cream

- Hat, cap or bob
- Camera...
- A small toilet bag, with towel
- Torch or headlamp
- Toilet paper
- A mini-pharmacy: personal medication, Compeed for blisters, elastoplast, gauze, disinfectant, arnica granules and aspirin in case of minor injuries, a survival blanket.
