The fourth section of the Pyrenees Traverse, with the famous GR10 as its guiding thread, takes place in the heart of the Central Pyrenees and invites you to explore remarkable sites. The trails of the Pyrenees National Park will first lead you through the three great Pyrenean Cirques.

From the Cirque de Gavarnie, an impressive and vast natural limestone amphitheater known worldwide, you will cross the high-altitude meadows of the wild Cirque d'Estaubé before reaching the base of the steep cliffs of the Cirque de Troumouse. The route then leaves the National Park to enter another protected natural area: the Néouvielle Nature Reserve, a stunning region filled with breathtaking glacial lakes and ancient hook pine forests.

As you pass through mountain cols and small summits with extraordinary panoramas, you will enjoy magnificent views of these preserved landscapes, including famous peaks such as the Pic du Néouvielle (3,091m), the ruler of the area, with its striking granite ridges plunging into the waters of Lac d'Aubert.

Continuing through the beautiful Aure and Louron valleys, you will reach the equally spectacular sites of Lac d'Oô and Espingo before arriving at Bagnères-de-Luchon, the "Queen of the Pyrenees."

This ridge straddles both the Cirque de Gavarnie and the Cirque d'Estaubé, which you will then enter. Surrounded by high-altitude meadows inhabited by friendly marmots and numerous grazing herds, you will continue to the Estaubé Valley near the Lac des Gloriettes. Then, you will ascend toward the Maillet Plateau and the Cirque de Troumouse. Three of the greatest cirques in the Pyrenees, all in one day!

•WHAT TO BRING AND PACK

Your main luggage (if package includes luggage transport between accommodations) :

For logistical reasons, we ask you not to bring more than one item/person. Its weight should not exceed 12kg - 15kg.

Your day backpack

The size of your bag varies upon the type of activity.

For a walk without portage : 30L minimum

For a walk with partial portage : 50L minimum

For a walk with portage : 60L minimum

Whatever activity you participate in, you should always carry in your rucksack:

- Rainwear, warm clothing, spare T-shirt, sunglasses, sun cream, first aid kit, picnic kit, personal items, etc.)
- Picnic lunch of the day (bring a plastic box)
- Sufficient water (minimum 1.5 litre water bottle)

Walking Boots

The type of boot depends upon the activities you take part in however they are one of your most important items.

They should be comfortable, waterproof and breathable. For the best protection we advise ankle boots.

We recommend our young walkers to wear flexible walking boots with a good sole and back.

For mountain walking for more than 4 hours long we recommend a boot with a fairly ridged sole.

If you need to buy a new pair of boots, we advise you wear them in before the start of your holiday. Don't wear boots that are too small because feet have a tendency to swell up. Be careful with your shoes that have been left in the wardrobe for too long. The lifespan of a shoe is 2 to 5 years. After a while the soles will come off and the seams can tear.

- A wind and rainproof jacket
